

WHAT AFFECTS THE NUMBERS OF

National Resources Wales (NRW)

In 2019, the NRW have serious concerns about the decline in the stock of the fish. They propose to invest in the future by possibly curbing all net and hook fishing in the Towy Valley. Throughout the last century there have been concerns and arguments for stopping coracle net fishing.

Fishing with a rod

Angling clubs throughout the valley fish from the riverbank.

Seine Net Fishing

Seine netters traditionally catch fish in the estuary between Ferryside and Llanstephan.

Sewage/Waste

Wide-ranging waste products including plastic, metal and general rubbish can be found in the tributaries of the Towy and the main river.

Micro plastics are also entering the food chain.

There are conservation groups set up with volunteers trying to raise
