

YMOSOD AR IRAC? ...NA!

Mae CND Cymru yn galw ar ein holl aelodau a ffrindiau i weithredu ar frys yn wyneb bygythiad cynyddol ymosodiad milwrol ar Irac. Byddai rhyfel ar Irac yn effeithio'n ddeifiol ar fywydau a iechyd dinasyddion cyffredin Irac a phobl y gwledydd cyfagos, a milwyr, ar amgylchedd Irac ac ar weddill y byd.

Pam rydym yn gwrthwynebu ymosodiad ar Irac:

- Bydd rhyfel rhag-ataliol yn creu cynsail rhyngwladol newydd, peryglus. Mae'r UD a Phrydain yn dewis ailddehongli'r sail gyfreithiol dros fynd i ryfel o ran 'hunan-amddiffyn', gan newid holl 'gyfreithiau rhyfel' a bygwth twf peryglus mewn bygwth neu ddefnydd grym.
- Byddai ymosodiad o'r fath yn torri'r gyfraith ryngwladol.
- Nid yw meddu arfau dinistr torfol yn gyfiawnhad dros ymosod yn rhag-taliol ar Irac. Pe bai, gellid cyfiawnhau ymosodiadau rhag-ataliol ar Israel, Pakistan, India, Gogledd Korea, Rwsia, Ffrainc a China, ac i wledydd eraill ymosod yn yr un modd ar Brydain a'r UD.
- Does dim cysylltiad rhwng rhaglen arfau Irac a digwyddiadau'r 11^{eg} Medi 2001.
- Y dioddefwyr mewn unrhyw ryfel gan yr UD yn erbyn Irac fydd plant, menywod a dynion Irac.
- Dioddefwyr y rhyfel cartref fyddai'n dilyn hynny fydd pobl gyffredin Irac, unwaith eto.
- Byddai ymosodiad ar Irac yn dadsefydlogi llawer o wledydd eraill yn y Dwyrain Canol.
- Byddai effeithiau amgylcheddol a iechyd tymor-maith erchyll yn y Dwyrain Canol a thu hwnt.
- Ni fyddai ymosodiad o'r fath ynglyn ag arfau dinistr torfol ond ynglyn â rheoli'r olew. Pa wlad - Iran, Syria neu hyd yn oed Saudi Arabia - fyddai nesaf?
- Byddai mwy fyth o niwed i isadeiledd chwâl Irac wedi rhyfel a sancsiynau yn achosi mwy o ddioddefaint i bobl Irac.
- Byddai pob ochr yn talu'n hallt - mewn gwariant ar arfau, cymhorthdal 'meddiannu' wedi'r rhyfel, ac ailadeiladu economi chwâl Irac.
- Byddai'n porthi mwy o weithredoedd gan frawychwyr.
- Byddai rhyfel o'r fath a gefnogid gan lywodraeth Prydain yn erbyn ewylllys mwyafrif pobl Prydain.
- Mae dadleuon llywodraethau dros ddefnyddio arfau confensiynol ac arfau dinistr torfol yr un fath. Mae llywodraethau Prydain a'r UD wedi mynegi eu parodrwydd i ddefnyddio arfau dinistr torfol os ydynt yn 'barnu fod hynny'n angenrheidiol'.
- Dydy rhyfel ddim yn ffordd amgylcheddol gynaliadwy o ddatrys gwrthdaro.
- Mae'r amgylchedd eisoes wedi ei niweidio yn y gwledydd hynny sy'n paratoi i ymosod ar Irac, oherwydd cynhyrchu a phrofi arfau, a hyfforddi pobl i'w defnyddio.
- Heb wir gyfiawnder ni fydd gwir heddwch.

ATTACK IRAQ?...NO!

CND Cymru is calling on all members and friends to act urgently in the face of the growing threat of military action against Iraq. War on Iraq would have a devastating impact on the lives and health of Iraqi civilians people in the neighbouring countries, combatants and on the environment of Iraq and the rest of the world.

Why we are against an attack on Iraq:

- Pre-emptive war will set a new, dangerous, international standard. The US and Britain are choosing to re-interpret the legal basis for waging war in 'self-defence' thus altering the 'laws of war' and threatening a dangerous escalation in the threat or use of force.
- Such an attack would violate international law.
- The possession of weapons of mass destruction does not establish a case for launching a pre-emptive strike upon Iraq. If so such a case could justify the launch of pre-emptive strikes on Israel, Pakistan, India, North Korea, Russia, France and China. And for other countries to launch such strikes on Britain and the US.
- There is no connection between Iraq's weapons programme and the events of 11th September 2001.
- The victims of any US led war with Iraq will be Iraqi children, women and men.
- The victims of resulting civil war will also be the ordinary people of Iraq.
- An attack upon Iraq would destabilise many other countries in the Middle East.
- There would be horrific long term environmental and health effects in the Middle East and further afield.
- Such an attack would not be about weapons of mass destruction but about the control of oil reserves. Which country - Iran Syria or even Saudi Arabia, would be next?
- Further damage to the sanction and war-weakened Iraqi infrastructure would lead to more suffering for the Iraqi people.
- All sides would pay heavily - in arms expenditure, subsequent 'occupation' relief and reconstruction following economic collapse.
- It would fuel more terrorist acts.
- Any such war backed by the British Government will be against the majority will of British people.
- The arguments made by Governments for using conventional weapons and weapons of mass destruction are the same. Both the British and US Governments have expressed their preparedness to use weapons of mass destruction if they 'deem it necessary'.
- War is not an environmentally sustainable way to solve conflict.
- Environmental degradation is already occurring in those countries preparing to attack Iraq, caused by the production and testing of weapons and the training of their users.
- Without true justice there will be no true peace.

What we do want

CND Cymru does not support the Iraqi Regime or Saddam Hussein but believes that a massive investment in real diplomacy, strengthening the people and their communities by dropping all non-military sanctions against Iraq and working through a reformed United Nations for true international justice for all. There should be weapons inspections of suspected factories and installations in all countries possessing or suspected of possessing weapons of mass destruction. Genuine measures leading to honest, complete and absolute disarmament should be taken by all states possessing weapons of mass destruction.
