Dear Mother & Dad

I hope you are all well & enjoying yourself at home. I received your letter this morning and it looks as if all my letters are going astray as I have been waiting for a reply to two letters and have been wondering what was up but you can hardly expect anything else as there is only two postmen for the whole Battalion and they have got to take them to the different company offices and then the orderly corporals have got charge of them so you can see how many hands they go through. You can make yourself easy about me being well as we have just come off a big route march with full packs on and feel as lively as a kitten, if you saw the tea I've just put buy you wouldn't have any doubts about it. I hope you will like this photo and let me know Gwen's address as I want to send her one and also thank her for the parcel so answer as quickly as you can.
