

staying at a large farm in
a very quiet village seems
to be no life in it at all,
in fact most of the chaps
are wishing to be back up
the line again. Last time
we were in the trenches the
Germans put up a notice
with something about the
war finishing in a month
or so. I did not see it
myself, because it was a
decent way on our right,
anyway. I hope that they are
not far off. The contents of
the parcel came in very handy
on the march. I am quite
well and hope that you are all
the same. Your affectionate nephew Jack.
