

Dear Mother

just a few lines so as to let you know that I have left Blackwell, and am now at (6A ward 2<sup>nd</sup> Birm. War Hospital Slolymore.) I am in the same ward as when you came to see me first, and am going up to see Mrs Barker after I finish this. My arm is still discharging and I do not stand any chance of coming home until it is healed up altogether, but the reason why I have come back here, is to have a certain treatment, so that I may get as much use as possible put into it. I have nothing more to say now, only that I am quite well. Hope you are all the same,

love to all

Jack
