

Confrontation

1990

Choreographer

Pedro Sandiford (UK)

Sandiford was a dancer in the company ensemble from 1987-1991. This piece was created as part of the Alternative Routes 1990 season, where company dancers were able to choreograph their own work. The production was taken into the company's main repertoire for one season and played smaller venues on the 1991 tour. This was Sandiford's second piece that was taken into the main company repertoire, the first being *East of the sun* in 1989.

The piece explored intimate feelings of love and passion, strength and power in a matador style.
