Hi John,

Yes I just emailed David,

I had asked Lynn for his email a while back and I guess it slipped both of our minds and time got away. I realized last night that I would find it on the WNGGA website and I did. Sorry for the delay. Had to coordinate getting control in my name in order to transfer the website to an updated host site and renew it for another year, ( the details are unimportant, but it took a while to get all of the names and passwords in order) but it is done and paid up for another year out of the 2003 checking account. FYI the domain name [www.festivalofwales.org](http://www.festivalofwales.org) is also attached to this website, we grabbed it last year when we saw it available, it should come up for renewal soon, but it is only about \$1.00 per month extra. I guess it should be decided if there is interest in keeping ownership for this domain name, the idea at the time was, that it was easy to remember and that it might be useful in the future.

Gerri Parry

Dear Gerri,

We are trying to get the NAFOW website up and running for Buffalo. The last communication I had on this was a copy of an email sent in early December from you to Myfanwy Davies. It indicated that you were going to have control over the NAFOW website transferred over to David Williams in Ohio. David recently sent me an email indicating that he does not have control over the website. Do you know what the current status of the website might be and how we can get control transferred over to David. I am afraid that the updating of the NAFOW website has been much delayed for a variety of reasons, so we need to get it changed to the Buffalo information as soon as possible. Any help you can give would be very much appreciated.

Yours truly,  
John Ellis

.....Having said that john (last email) the domain name and password etc should be located at HQ so there is some continuity. I talked with Gerri ealrier today and recommended that she pay the re-registration fee before transferring (we can do so from the profits) and then let you have the details.

MY understanding was that David Williams was going to be asked to do the web site for NAFOW. certainly the content needs to be changed. We have the contents on CD for posterity.

Hi John,

You should have received a copy of my earlier email today about the web site. Gerri Baker Parry is looking after getting it transferred from Victoria, B.C. to David Williams in Ohio.

I thought this had been done in September and wasn't aware of the delay until Berwyn sent me a message last week.

Myfanwy

Dear Geraint,

Thanks for the email. The creation of the Buffalo website is in the hands of the Buffalo committee. I am copying Myfanwy Davies, the chair of that committee, on this reply.

Unfortunately, we do not have any more of the Buffalo flyers and we are unlikely to have more printed. We are undergoing a cash flow problem and the funds are not available. I may, in the near future, be able to produce a simpler (non-color, text only) flyer as requested. How many of these would you like sent?

Yours truly,  
John Ellis

Dear Gerri,

I would think the bills for the website should be sent here to international headquarters and should be in the name of the WNGGA itself. The billing address is:

WNGGA International Headquarters  
PO Box 512  
Hartland MI 48353

Please let me know if there is anything I need to do to have the bills transferred.

In terms of the web master, I think someone in the Buffalo committee is going to take up the job. My notes on 2004 does not list who this is so you should contact Myfanwy Davies at [buck@eisa.com](mailto:buck@eisa.com)

Please let me know if I can be of any other assistance.

Yours truly,  
John Ellis

Subject: Fwd: Your pairNIC domain expires 90 days from 2003-11-23

Hi John,

This email arrived reminding us that the website that was created for NAFOW 03 needs to be transferred, at this time it is in my name with Helen Steinle as the treasurer and as far as I know Rob Lintern in Victoria, who created it, is still in control of it as webmaster. Who should I work with to get this switched over to the WNGGA?

We applied for [www.nafow.org](http://www.nafow.org) in Feb. 02 and then [www.festivalofwales.org](http://www.festivalofwales.org) May 03 so that one should be all right for a while. Both names are attached to the website. We probably don't want to lose either of them. Looking at my records, subtracting the original set up fees, for the hosting service and both domain names it costs about \$10.95 per mo. with a discount for paying for 1- 2 years

page

at a time.

Any guidance would be appreciated. I am trying to reacquaint myself with the whole thing website lingo, I get confused since I don't do this but every year or so.  
Gerri

Hello Gerri,

Thanks for letting me know what is happening with the web site, although I don't understand most of the terminology. My understanding is that David Williams in Ohio is going to look after the NAFOW 2004 web site as he is doing the WNGGA one. I have copied him on this email.

I will be away from Dec. 11 to 28, so I hope there are no problems.

Myfanwy

Hi Myfanwy,

John Ellis asked me to contact you about the NAFOW website. I am transferring ownership of it to the WNGGA so they will keep the domain names that we registered. Do you have someone who can take over as webmaster for 2004. I can work on getting all the info ready to pass on from Rob Lintern who has control of it at the moment. I may need to make a trip to Victoria to understand it and get it transferred properly.

I need to take care of this ASAP as the www.nafow.org domain name expires in less than 90 days and I want to get it all done at the same time to save on time. FYI, there is also the domain name www.festivalofwales.org That is attached to that website, in case you want to use it in the publications.

Gerri Parry

Subject: FW: website- North American Festival of Wales 2004 (fwd)  
Date: Wed, 4 Feb 2004 13:15:05 -0500

Dear Alan,

I am hoping either of you might be able to help me get this sorted. As you can see from David's email below, he has never been approached about maintaining the NAFOW website.

Some time ago, I was approached by someone on the Richmond committee (sorry I can't remember who it was) who was asking about to whom control of the NAASWCH website should pass and who was going to take over responsibility for paying the provider. I think Alan, Huw and I discussed the matter and it was determined and communicated that control of the website should be transferred to David Williams and that any bills should be sent to the WNGGA headquarters. Subsequent inquiries regarding updating the sites with the Buffalo information resulted in David replying that the updates were forthcoming- I realize now that he was only referring to the WNGGA site as he had never been contacted about the NAFOW site and was thus unaware of it.

So, where do we go from here? Who has control of the site currently and how do we see that control of the site is actually transferred? I would think it still resides with someone on the Richmond committee and will look up the Richmond file tonight to see if the information is there. Below, David says he will need the ISP, the site password and payment needs to be transferred (to HQ rather than David himself).

Thanks,  
John

Dear David,

First, let me thank you for your efforts on behalf of the WNGGA. Your work is very much appreciated.

I was afraid that what you have described was the case. The site was supposed to have been transferred to your keeping from the folks in Richmond some time ago (and I was told that it had in fact been done) but it appears that you never had any contact with them.

I will try to get to the bottom of the situation and hopefully we can resolve this quickly.

Yours truly,  
John Ellis

Hi folks,

I have been playing around with the NAFOW webpage to see if we could convert the Richmond webpage to Buffalo. It was a little tricky because of the graphics, but I was able to correct the logo/name graphics with a paint program so as to eliminate the "2003" and transfer most of the other graphics. So, we should have a Buffalo website that has pretty much the same appearance as the Richmond one.

We have been getting alot of communications regarding the outdated NAFOW site from people looking for information on Buffalo, so we need to get the Buffalo info up as soon as possible.

It is my understanding that David now has access to the www.nafow.org site as well as the www.wngga.org site. I will email the revised webpages and accompanying graphics to David Williams so that he can post them up on the www.nafow.org website. Right now, these pages carry basic information. I can send updates to David as they become available.

Yours truly,  
John Ellis

Me Again,

I had a long talk with Berwyn and Martha this afternoon. I hope to get a good chunk of the information to you this week. Martha is also going to send some more to you.

My holdup is that I can't finalize 2 artists, and couldn't work out prices. But as Martha pointed out, the prices don't have to go in the booklet, they can go on the separate sheet.

Thanks for working on the web site. When it's done I'll get someone to show me how to find it so I can have a look.

Hi John,

I have no access at all to www.nafow.org. Until now no one has mentioned it to me at all, except for a communication with Myfanwy in October in which she was inquiring as to what was involved.

If I am to update this site, I'll need to know who the ISP is, payment information, and the site's password. That will allow me access to the site so that it can be changed.

In 1998, I created the WNGGA's main site, and used my ISP at the time (earthlink) to host the site. I have been paying for it via my credit card billing from earthlink since then, with periodic reimbursement (semi-annually or annually) from WNGGA. The intent at that time was that all WNGGA events and contact should occur through www.wngga.org. That has apparently changed since the separate site www.nafow.org was created to promote the Richmond event.

Best regards,  
Dave Williams
